

Student Welfare Scheme

Sources of Fund: The fund is generated through voluntary contributions from the teaching staff as well as through donations received from different entities.

The object of the Fund: The objective of this fund is to enable economically challenged students to fetch their financial needs to some extent for their studies.

About the Fund: The fund helps economically challenged students to pay college admission fees, examination fees, or to pay higher education fees, or to pay fees for any skill enhancement courses from any recognized institution.

Students are also provided the bicycle on retirement by rotation scheme. In this scheme the students are provided the bicycles for the entire academic session to attend the college and the bicycles are kept with the students, then, they are required to return the bicycles at the end of the academic year. Then after, they have to apply fresh for the next academic year.

Similarly, economically challenged students belonging to rural as well as remote areas are reimbursed the bus pass money to attend college for their regular studies.

From the academic year 2023-24, a little improvement has been made in this scheme by introducing the " Self-Respect" element. In this scheme, another committee is being formed by the college namely the " Earn & Learn Committee".

The economically challenged students will apply through this Earn and Learn Committee and the students will be provided certain tasks by the college to accomplish on a timely basis. The student will finish the assigned task after completing their academic hours within the college, they will work for two to three hours and they will be paid for their services. With this introduction, the students and their families will not feel bothered or encumbered about any fiscal need being received by them as free from the college. In fact, the students and their families will feel proud that they are not being helped by mercy but they are earning their own money for their studies.

This new scheme also enables the students to enhance their working ability skills at the workplace.
